CONDITIONS.

Entries to all trotting and running races to close with the Secretary, at 9 o'clock, P. M., Saturday evenings, until 8 P. M.

All entries to be made in writing, to give sex, color and marks of horses. Also name and residence of owner, and in running races colors to be worn by rider, and in any other particulars that will enable the audience to distinguish the horses in the race.

With the consent of the racers, on outside of envelope, seal and account by entrance fee.

Entrance fee, ten per cent of purse. No entries will be received unless accompanied by the fees.

In all races three or more to enter and two or more to start.

National Association Rules to govern trotting, but the President reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between the heats.

Rules of the Pacific Coast Blood-Horse Association to govern running races.

Any person not intending to start his horse must notify the Secretary in writing on or before 3 o'clock, in the evening previous to the race.

Horses entered in races can only be drawn by consent of the Judges.

For a walkover in any race a horse shall only be entitled to his own entrance fee and quarter of the entrance received from the other entries for which he runs, and a horse winning a race entitled to first money only, except when contesting the field, then entitled to first and third money only. A horse wins, if one money under any other circumstances.

The attention of all parties interested is particularly called to the rules of the National Trotting Association, under the proviso of which, except as otherwise specified, all matters appertaining to the trotting races will be conducted.

The following resolution, adopted by the California State Board of Agriculture, has been endorsed and will be strictly enforced by the Association.

Newspaper That where any rider, driver or horse rests under a tree composed by any District Blood Association of the State that it is same shall be duly recognized by that Association and that the person or horse upon which the said horse rests shall not be allowed to ride, drive or start in a race until such time is lifted or satte.

IN AND OUT OF TOWN.

What is Being Said and Done in a Small Way.

Frank Perkins is slowly recovering, but is yet a very sick man.

Dakin & McClellan's teams came in from Susanville yesterday with a load of flour.

The fact is admitted that E. Meyer keeps a superior brand of cigars and tobacco, always.

A man giving his name as L. W. Bearden was yesterday sent up for twenty days for vagrancy.

The Enterprise announces the fact that the family of Dr. E. B. Harris will take up a residence in Reno.

There are fifteen prisoners in the county jail. Jailer Pine says they are hanging up on pegs around on the wall.

The ladies of the W. C. T. U. will give a free entertainment at their rooms on Virginia St. next Saturday evening.

There are fifteen prisoners in the county jail. Jailer Pine says they are hanging up on pegs around on the wall.

Frank Fry was convicted in the Justice Court yesterday of selling whisky to Indians and will receive his sentence this morning.

Varian and Lindsay argued the cases of Brown vs. Evans and Norton executors vs. Martin & Clark, in the Supreme Court yesterday.

Eleven members of the Carson Guard last Sunday made a total of 935 at the two ranges, and a like number from Virginia scored 912 out of a possible of 1,000.

Two things seem to be inevitable—that France will declare war upon China, and that the Pacific Brewery will make George Becker a millionaire.

A. H. Barnes received a dispatch from Sacramento yesterday morning informing him of the fact that William Williams, of Susanville, died in that city Monday morning.

The most healthy and popular drink of the season is the ico cold soda water sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

It is probably a settled fact that Reno is to have no Fair this Fall, but the people can console themselves with the fact that in the White House they have the finest clothing store in the State.

The pay rolls of the Con. Virginia, California and C. & C. shaft for August aggregated \$13,055.50; Utah, \$3,715; Union shaft, \$9,601.50; Ophir, Mexican; Union Con and Sierra Nevada, \$32,143.

The young ladies of Reno will give a social dance some evening next week and want all the dancers to stand in and help them have a good time. Full particulars will be given in due time.

W. H. Bryant, Melter and Refiner of the Carson Mint, accompanied by his family, came down from the Capitol last night, en route to Riverside, Calif., where Mr. Bryant's family will take up their abode for the winter.

The Plumas National says Mr. Maylert has made arrangements with the Nevada & Oregon Railroad to carry passengers from Reno to Onida and from Oneida to Reno which will shorten the trip one hour each way and will be much more comfortable.

A New Mineral.

Adamscobite is the local name of a mineral which is said to be found in only one place in the world, and that the State of Missouri. The stone is very peculiar in its structure and properties. Its cutting power is diamond-like, cutting away steel very rapidly, and still retaining an exceedingly fine edge.

A Conductor Dead.

J. W. Simpson, an old railroad conductor on the Humboldt Division of the Central Pacific Railroad, died on Saturday last at the Railroad Hospital, where he had been confined for a long time.

The Warden also sends the Board of Prison Commissioners the annexed resume of other than statistical matters:

During the month I have extended the stone wall on the east side of the prison yard 160 feet, averaging 10 feet high, and have laid 250 feet of six-inch coping on the same. This not only adds to the security of the yard but materially to its appearance and enables us to dispense with the services of one guard in the future.

I also append balance sheet of the boot and shoe factory for six months, from February 14th to August 14th, 1883, which I am pleased to say, shows a small profit.

On March 1st I raised the price of goods about 5 per cent. throughout and reduced salaries \$50 per month. I have investigated the market and purchased goods to the best advantage, receiving discounts usually allowed to factories; also discounts for cash payments, which amounts to a very considerable item.

There has been employed, in the boot and shoe factory for the six months, an average of 47 men per day. This shows less than 6½ cents per man per day for labor.

Our at Time.

A couple of frolicsome miners walked into a restaurant in Salt Lake the other day and called for something to eat, and while the meal was being prepared amused themselves by throwing bits of crackers and pickles at the waiter and occasionally shying a piece at the proprietor, who requested them to desist, and, upon their failing to do so arose to enforce the order when both miners bounded him. At this juncture the brave wife of the restauranteur came upon the scene, and producing a revolver, leveled it at one of her husband's assailants, and quietly said: "One at a time, boys." The party addressed got out of the place with an alacrity that was surprising, followed by his companion, when the lady put away the revolver and quietly resumed her occupation.

Ayer's Ague Cure is the only remedy known, which is certain to cure Fever and Ague permanently, by expelling the malarial poison which produces the disease. It does this surely, and leaves no ill effects upon the system. Nothing is so thoroughly depressing and discouraging as the periodical return of the alternate chills, fever and sweating, peculiar to this disease.

A CONDUCTOR DEAD.

ductor on the Humboldt Division of the

Central Pacific Railroad, died on Sat-

urday last at the Railroad Hospital, where

he had been confined for a long time.

A Prospector Heard From.

The JOURNAL is in receipt of a long letter from that old pioneer and veteran prospector, John Poe, who is now engaged in mining and prospecting in Plumas county, Cal., in which he gives a detailed account of thirty years experience as a prospector, and volunteers some advice to young men who may wish to embark in that exciting although not always profitable business. The letter is too voluminous for publication in these columns, but his advice to amateur prospectors may be summed up about thus: Take a pick and pan and go into the mountains. Find a ravine that has been worked for placer gold; go about 20 feet above where the miners quit work and commence panning dirt on both sides of the ravine till you cease to find colors, then go back a sufficient distance and run an open cut to the bed rock, and a blind ledge is sure to be found.
